DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).
2. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over the reference claim(s).
3. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application, see 37 CFR 1.130(b).
4. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).
5. **Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting** as being unpatentable over claims (see table below) of Chevallier et al. (US Patent No. 6,944,839).

Present Application Claim (10/781, 959)	Conflicting Patent Claims (6,944,839)
Claims 1, 8, 14, 18	Claims 1, 10, 17
Claims 4, 9	Claims 7, 13, 16, 18
Claims 5, 10, 17	Claim 18
Claims 6, 12	Claims 2, 11, 19
Claims 7, 13, 16, 20	Claim 9

Art Unit: 2825

6. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims in present application are similar to claims in patent 6,944,839 as shown.

Claim Objections

7. In the preambles of independent claims 1, 8, 14, and 18 after "integrated circuit" insert --design-- for clarity.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. **Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph**, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

10. In Claims 1, 8, 14, and 18, the term "default" in "default minimum line width" renders the claim indefinite, since it is unclear as to how "default" relates to "minimum line width", and further what the term is meant to encompass.

11. Claims 1, 8, 14, and 18 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. It is unclear as to how the line width parameters, which corresponds to line width, and line width markers, which indicate lines with greater than a default minimum line width, are transformed/converted to lines in a layout, since neither the line width parameter or the line width marker signify essential geometric attributes, other than line width, in a layout such as positioning and line length; and further are associated only with attributes of width of the line, and not the lines themselves.

12. In Claims 2, 14, and 18 the phrase "line width layer" renders the claim indefinite, since it is unclear what the phrase is meant to encompass.

Art Unit: 2825

13. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

14. Claims 2-7, 9-13, 15-17, and 19-20 are rejected, because of their dependency on rejected base Claims 1, 8, 14, and 18, respectively.
